

# RIVERS LAND TRUST

**Keeping our wild & working lands forever abundant**

## Signal Buttes

### Conservation Easement

This 160-acre conservation easement was donated to WRLT by private landowners in 2019. Perched at 2800 feet above the Rogue River and adjacent to important botanical areas on federal land, the property contains forest, meadow and rocky buttes. The streams on the property feed tributaries of the lower Rogue River. The owners continue live on the property and steward the land.

This easement is a showcase for the biodiversity that the southern Oregon coast is known for worldwide.

Donating this conservation easement to WRLT has provided the assurance that this land will be protected for generations to come.

Working together to keep the irreplaceable lands and waters of the southern Oregon coast forever wild and abundant. We believe our enduring environment, economic prosperity, and rural coastal culture are connected. From Tenmile Lakes to Brookings, we conserve and steward natural spaces people and wildlife depend on for clean air, fresh water, and healthy habitat. And by partnering with willing landowners, we help working farms, forests, and ranches preserve their legacy today for future generations.

### Wild Rivers Land Trust

Together, we are keepers of this wild place
